Good Morning Denis and Terry,

I am not sure if the OSC relayed the attached information to you or not. So it is being forwarded to you FYI. Also, when your schedule permits, please give me a call. Thanks and have a great day.

Ursula Lennox

 Subject: Re: Requested FilesRe: FW: sharepoint site

I tried to send this yesterday via BB but it didn't work. CH2M Hill began putting some files over on a Share Point site and may put more more. Myself and START would mainly like the electronic files (lat/long, grids, sample pts) and any shape files to help us reconstruct the previous grids. If not, we go with rectangular grids.

Thanks

 Subject: Requested FilesRe: FW: sharepoint site

Terry,

We need all information, files, and documentation for each of the three distals - 1N, 1S, and 2. This includes the following at a minimum in addition to what is already there:

1. The RAR folders for each of the Distals are empty, no files, we would like to have them
2. Whatever electronic files you have containing all the latitude/longitude info for all the grids and sampling points.
3. All shape files for each distal
4. All pre-design and post-design maps which show contour lines, pre-construction and post construction diagrams. What ever you call them.
5. All sampling results (Apparently there is a database/spreadsheets containing all the sample results with the latitude and longitude for each one and for grid points...The entire database would be fine for us, don't waste time trying to pull out the info.)
6. Conversation Records in addition to the Daily Reports
7. All Invoices for every cost whether direct or indirect passed on to EPA, including first, second, third, etc. tier subcontractors
8. Inventories for the archived documents in Dallas
9. All communication, invoices, documentation, etc with Kingston and Johnny Seeling
10. Restoration Agreement
11. Walk thru notes, checklists, etc
12. Pre-Completion documents when punch list is developed
13. Final signed completion documents
14. Any written guidelines or SOP's relating specifically to OU4
15. Sampling and Analysis Plans and QAPPs

Thanks!!!

Here is the link to the sharepoint site that Margaret has set up for this information. I have copied Margaret as she controls the sharepoint site and can help you work through issues or add others if necessary.
